

Please accept this comment as a request to not let the new LPFM stations take priority over current FM translator services. I am a listener of the radio station K-Love and would be given a huge disservice by having it eliminated from my area. It is one of the few stations that provides encouragement to its listeners of all ages.

I know it has an impact on the community as a whole as many of my friends and family members listen to it.

This station has the public interest at heart as it is not politically motivated or supported by mainstream advertising . It is supported by its listeners and should be allowed to continue.

Thank you for your time,  
Margaret Morand
